How We Will Calculate your Balance: The Interest Charges for a billing cycle are computed by dividing the Annual Percentage Rate (APR) by 365 and applying to the “average daily balance”. To get the average daily balance, we take the beginning balance of your account each day, add any new purchases or cash advances, and subtract any payments, credits, non-accruing fees, and unpaid finance charges. This gives us the average daily balance. Then we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle.

Billing Rights: Information on your rights to dispute transactions and how to exercise those rights is provided in the terms and conditions mailed upon approval of your card(s).

Authorization: Terms governing the use of your card will be delivered upon approval of your card(s). By using the account or any card, authorizing their use, or making any payment on the account, you agree to be bound by these terms.

* The rate will be determined by adding a regular margin of 5.00% to the Prime Rate published in the “Money Rates” column of the Wall Street Journal on the 10th of each month (or if the 10th falls on a day the Wall Street Journal does not publish, the last publishing day preceding the 10th). Any change in the rate will go into effect on the first day of the following month, and may result in an increase or decrease in the FINANCE CHARGE imposed on your account.
